

Director of Care

Are you a high energy, resident-centred health care leader seeking variety, a challenge and a respectful work environment.

City Centre Care Society has, for over 100 years, provided residential health care services for persons living in the inner city of Vancouver, BC. Working for this non-profit organization will appeal to persons interested in role modeling and in improving the quality of life for approximately 200 residents living on two sites. Our complex care services provide specialized holistic care to the marginalized while our licensed assisted living program provides enhanced services.

Our organization is seeking a high energy, seasoned leader with a positive disposition who is a strong team player to serve as the Director of Care. This person will use her/his operational and strategic planning skills to build on our considerable strengths and increase our capacity to deliver the next higher level of resident-centred care.

This position will appeal to a Nurse with significant management experience in a residential health care setting. The applicant must enjoy interacting with staff and residents of various ages to improve the quality of life of both groups. The individual's passion and belief in a social model of care will be demonstrated in a willingness to work hard to make meaningful change. This leader will inspire staff to strive to maximize the value of their contributions for the benefit of the residents. The ideal candidate will have strong skills in facilitation, conflict resolution, problem solving and team building. Mental health and addictions experience is desirable.

Applicants interested in exploring this unique opportunity can visit our website at www.cccares.org. If you wish a tour of our buildings call Seamus O'Melinn, CHE, Executive Director at 604-639-8248. Resumes can be submitted to somelinn@cccares.org.
